- Water Shoes are preferred over sandals
- Dirty Clothes Bag

NOTES:

1. Make sure your child can stuff their sleeping bag back into the sleeping bag stuff sack all by themselves. Adults cannot be inside scout tents and therefore all scouts really need to be able to unpack, and pack, their own equipment by themselves.
2. There is NO access to electrical power.
3. Label everything with your last name on it.
4. Pack with the fewest bags possible and remember everything will probably have to be carried a short way from the car to the campsite. So everything needs to be portable, organized, and don't over pack. If it's not on this list, you don't need it.
